Connection cable for SafeLight LED strip

Part nr: 151230

EAN: 7090049800177

ENG

Product information

The connection cable for SafeLight LED strip is designed to fit perfectly with SafeLight LED strip. The cable makes it easy to connect or extend SafeLight installations, for both temporary and permanent use. It features a plug & play function for quick and safe connection without tools.
The cable is designed to maintain both the IP rating and all required electrical approvals, keeping the installation safe and reliable over time.

Note: **Only compatible with the SafeLight LED strip series**. Cannot be used with other LED strips.
