Connection cable for M-Flex LED strip

Part nr: 151275

ENG

EAN: 7090049800368

Product information

The connection cable for M-Flex LED strip is designed specifically for use with M-Flex LED strip.
The cable works as a joint or extension, giving you the flexibility to expand or adapt M-Flex installations as needed – without compromising on safety or quality.
Connection is simple, quick and requires no tools – plug & play. The cable is designed to maintain the IP rating and electrical approvals of the entire system.

Note: **Only compatible with M-Flex LED strip,** and cannot be used with other types of LED strips.
